LOCAL NOTES.

The police commissioners meet to-night at the City Hall. Admittance free.

Some one has made a French paper believe that Americans living on the shores of Lake Erie barrel up their money and sink it to a depth of 50 feet to keep it secure from robbers.

A Frenchman was brought over from Bisbee yesterday by Constable Lowther. He was sentenced to the county jail by Judge Perrin for 40 days for theft.

The Germans are acting as if they owned Sonora and no one else had anything to say about matters. Bis-march intends to possess the islands and then explain afterwards.

Wanted.

Teams for Sonora. Apply to
 S. M. BARNOW,
 Allen street, Tombstone.

You can have your future told for 30 cents in Buffalo, and who wants anything better than that?

 Chairman.
 FRED CASTLE,
 Clerk.

A Discovery of Nickel.

A small sized mining excitement is incubating in Globe, which may grow to larger proportions soon. It is occasioned by a discovery of nickel in the Sierra Ancha mountains, at the head of Tank creek, in Gila county, by Frank Cline, who visited Globe on Monday and had his claim, the Nickel King, recorded. The character of the mineral has been positively determined by an analysis made by the San Francisco mint, showing it is alleged, 72 per cent nickel in the sample. The width of the ledge is variously stated at from four or five to ten feet, and is said to crop out at several points and can be traced for a distance of three miles or more. E. F. Kellner has a contract with the locator which may result in his holding the claim. Chas. Bonquet, who resides in Tonto Basin, some twelve miles from the find, and is familiar with the country, confirmed the story of the large deposit of this ore and expressed his intention of making some locations near the Cline discovery on his return. W. A. Holmes, who prospected that region years ago, leaves for there to-day.

Bel.

Death of John June.

John June died this afternoon at 2 o'clock of hemorrhage of the lungs. He had been suffering for several months but nothing of so serious a nature as his untimely death was anticipated. He was well known throughout the Pacific coast and had made his home in Tombstone for several years. He was a member of the L. O. O. F. He leaves a grief-stricken wife and a large circle of firm friends who sympathize with her in her affliction.

A reception was given last evening to Senor G. Acosta and bride, by Jose Madero at his residence on Tenth and First streets. A large circle of friends of the couple called to pay their respects. Among the number to offer their congratulations were the types of the Prospector office, who will ever hold in remembrance the wedding reception to the Senor and his bride.

Superintendents of private orphan asylums have either been doing better of late or they have better luck in avoiding notoriety. Cases of starvation and seating inmates on red-hot stoves have become scarce.

A New Jersey oculist took notice of sixty different adults who were reading books or papers, and only three out of the number took any pains to get the proper light on the lines. It's no wonder we all wear "specs."

"What I say, I say!" ruled a Missouri Justice of the Peace, "and if the Supreme Court dares meddle with any of my decisions I'll resign off this chair quicker'n a coon kin fall out of a tree!" The threat keeps the higher courts cowed.

Don't fail to get one or more tickets in the Raffle at Henry Campbell's saloon for the elegant Black Bear and Wolf Bed Spreads and Rug. Only 85 tickets for the two robes and rug. Two highest first and second choice; lowest, third choice. These are new and choice goods and much cheaper than retail prices.

SALESMEN.—We wish a few men to sell our goods by sample to the wholesale and retail trade. Largest man address in our time. Send 2 cent stamp. Wage \$3 per day. Permanent position. No postpaid answer. Money advanced for wages, advertising, etc. CENTRAL MANUFACTURING CO., CHICAGO, ILL.

COPPER QUEEN.

Branching Out in All Directions.

A Railroad to the Coal Fields of Mexico.

And Another One from Wilcox to Globe Within the Possibilities.

The phenomenal success which has attended the Copper Queen Company at Bisbee, during the past two years, and the rapid strides which have been made in the opening up of their property there, the discovery of almost inexhaustible ore bodies, and the rise in the price of copper, was inducement enough for the management to construct a railroad from Fairbank to the mines. This road has just been completed. It is a standard gauge and substantially equipped. But the company, which is controlled by some of the wealthiest men in the country, will not stop here.

In conversation with a prominent railroad man of Benson yesterday, the Prospector gleaned the information that a favorable report will probably be made by the experts and surveyors on the coal lands just across the line in Sonora, Mexico; and that just as soon as this question is settled the construction party composed of 400 men and all equipments, now at Bisbee, will push the road to the border in short order.

Our informant also stated that the Queen company was also favorable to the building of a road from Wilcox to Globe. He asserted that the copper mines at the latter place had come under the management of the owners of the Queen mine, and that just as soon as the road to the coal fields was completed that the construction party would be put on to the Wilcox and Globe line.

One fact is certain this enterprising company is not going to stand idly by and see the copper mines of Arizona idle as long as they control them. The Chilson, United Verde, Queen and old Dominion great present controlled by them, and are the only copper producers of any magnitude at present in our Territory. Coke from their own ovens, manufactured from coal from their own mines, placed upon cars on their own line and delivered at their own smelters at these four points in Arizona will complete the greatest mining industry and most wonderful undertaking ever witnessed in the United States of a similar nature.
